John Nordine
US EPA
77 W. Jackson Blvd. LU-9J
Chicago, Illinois 60604

Dear Mr. Nordine

I have reviewed the Natural Heritage Database for the Former Carboline Company project area, including a one mile radius, in Xenia Township, Greene County, Ohio. We have records for rare species your search area. A map showing the locations of these elements is provided with this letter.

Our inventory program has not completely surveyed Ohio and relies on information supplied by many individuals and organizations. Therefore, a lack of records for any particular area is not a statement that rare species or unique features are absent from that area. Please note that although we inventory all types of plant communities, we only maintain records on the highest quality areas.

This letter only represents a review of rare species and natural features data within the Ohio Natural Heritage Database. It does not fulfill coordination under the National Environmental Policy Act (NEPA) or the Fish and Wildlife Coordination Act (48 Stat. 401, as amended; 16 U.S. C. 661 et seq.) and does not supersede or replace the regulatory authority of any local, state or federal agency nor relieve the applicant of the obligation to comply with any local, state or federal laws or regulations.

Please contact me at 614-265-6452 if I can be of further assistance.

Sincerely,

Greg Schneider, Administrator
Ohio Natural Heritage Program
